The minutes of the April 15, 2011 Senate meeting were adopted with noted changes.

BUSINESS ARISING FROM THE MINUTES

Regarding the 11-page statement read by Senator Dennis at the April Senate meeting, the question was raised as to whether this statement was written, vetted and endorsed by the entire board membership. The response was “no”, the statement was essentially compiled by Senator Dennis, the Chair of the Board of Governors and the Office of the President. In follow up, it was suggested that this document should have received board approval but as it is currently presented, it should clearly indicate that it is the opinion of three people.

A motion was put forward at the April 15 Senate meeting regarding the release of the vote count from the secret ballot of the March 11, 2011 Senate meeting. That motion was deferred so that the Senate Speaker could research this request. The Speaker sought the opinion of an expert on Robert’s Rules of Order who indicated that the vote count could be made public, but those who voted must be protected. The results of the motion of no confidence were: 40 for and 8 against.

The question was asked of Senator Dennis if these results would now be communicated to the Board of Governors. It was noted that the prepared statement by the three designated senators was not read at the closed session of the April Board meeting nor the May Board meeting. Senator Dennis responded by indicating it could be presented in the closed session of the June Board meeting.

QUESTION PERIOD

There was a request for confirmation that the two new hires for the School of Business and Economics have been approved. Senator Paine-Mantha responded by stating that the budget has not been approved by the board so nothing can be confirmed at this time.

A question was raised regarding the changes to the spring/summer timetabling, specifically who allowed these changes to occur and were faculty consulted. Concerns were also voiced as to whether compressed offerings were pedagogically inappropriate. The Dean of Arts and Science indicated he authorized the scheduling, but it was faculty members who decided to teach their respective course in the compressed schedule. The Registrar added that there have been a number of benefits that have occurred with the compressed schedule in that a large number of students are now able to graduate at the June convocation.

A request was made to include the names of APT members and results of the meetings on the website. It was noted that this information should be made available once the new website is up and running.

With the recent announcement of the Northern Ontario Policy Institute, a question was asked if there will be any role for Nipissing University. Senator Rich responded by noting that this initiative was started by Laurentian and Lakehead Universities and that the President is making a strong push for Nipissing to be part of this endeavour.
